

SUPERVISOR SAFETY CERTIFICATE

**You can't afford
costly mistakes!**

Safe Supervisor™ Because Every Decision at Every Level Counts

Achieving an injury-free workplace takes a team effort. Your frontline supervisors interact with employees on a daily basis and must get their role in creating and maintaining a safe work environment.

Safe Supervisor is a 3-day certificate course designed to enhance a line supervisor's understanding of their safety responsibilities.

Students Add to Their Tool Kit the Ability to:

- Gain active participation of employees
- Initiate effective incident investigations
 - Describe how exposure to hazards leads to accidents
 - Perform a worksite analysis
 - Recognize and correct unsafe situations
- Determine what potential effects a hazard may have
 - Determine regulations regarding a hazard
 - Determine how to control identified hazards
- Communicate hazard related information to personnel in the field as well as those in administrative positions
 - Understand the psychology that drives people not to do the "safe" thing

Cost: Members: \$525/\$675 Non-members

Classroom Instruction Includes:

- 24 hours of hands-on, face-to-face learning, delivered by an OSHA 500/501 qualified safety instructor
- daily quizzes
- interactive classroom discussions
- case studies
- comprehensive final exam
