

Is COSS Right For Me?

Take this short quiz to find out.

1. Are you interested in enhancing your current safety knowledge or preparing yourself for opportunities in the safety and health field?
Yes No
2. Would you like to learn how your company can save thousands of dollars every year just by making a few simple changes?
Yes No
3. Would you like to learn how to lower fatalities, injury rates, near misses and OSHA citations in the workplace?
Yes No
4. Would you like to learn how to identify and apply the OSHA regulations that apply to particular hazards in your workplace?
Yes No
5. Are you interested in learning the true costs of an accident, including various hidden costs?
Yes No
6. Do you want to learn why employees violate safety rules even when they know it's not safe to do so?
Yes No
7. Would you like to learn what it takes to set up an effective health & safety program, and how to present the information in a well-received manner?
Yes No

COSS is an academically rigorous course that requires nightly reading from a college textbook, daily quizzes, student presentations and a final exam. If you think this course is for you **and** you've answered **YES** to all of the questions above, then you are the ideal candidate for COSS!
